Seminar: Prof David Treagust (Education)
Researchers adopt different research designs and methods. However, without understanding the backgrounds and reasons for choosing research designs and methods, we may misjudge the quality and the value of the research. In this presentation, David will discuss the backgrounds and reasons for choosing different research designs and methods and discuss a range of research methods which may be categorised as qualitative and quantitative. Reasons for choosing qualitative or quantitative research methods depends directly on the type of research being investigated as well as the expertise and competencies of the researcher.

Q&A Panel: Prof David Treagust, A/Prof Kit Messham-Muir (SODA); A/Prof Philip Moore (MCCA); Prof Rob Cavanagh (Education)

Workshop: Prof Michael Keane

Curtin University Doctoral or Master (including coursework) students, honour students, early career researchers and supervisors welcome. (Please note our seminars do not meet the supervisor registry requirements).

RSVP
RSVP is essential. Please RSVP to Julie Lunn at humgraduates@curtin.edu.au
